COME TO FRASER'S SOCIAL EVENING

OCTOBER 23, 1987

FROM THE BRIDGE

I am sincerely hoping to finish my painting before the weather changes: I hope you have all had a great summer.

All our courses have started - many members have embarked on a busy time ahead, instructors, proctors, the training department and members of Fraser's Bridge. Good luck to all of you.

In an attempt to help our members, especially those who have joined recently, feel welcome and valued, may I ask all members to make a point to make contact during our socials with people you haven't met before? We need, as all organizations do, fresh ideas, enthusiastic participation and continued growth, to keep Fraser the progressive, lively squadron it has always been.

My telephone number is 277-7981, and I welcome calls from anyone who has suggestions or ideas that might be considered by our bridge to enhance our organization.

Fraser's training department is in full swing, with classes underway.

First off, I would like to thank the Training Executives for a job well done in finding the 48 instructors, co-instructors and proctors needed to put on the classes Fraser is offering. I know a lot of time is spent going through the roster, phoning people and getting a commitment. My thanks to Ted and Dorothy Roberts and Garry Lewichew.

Secondly, I would like to thank the instructors, co-instructors and proctors for volunteering. Without your help and support, Fraser's Training Department would not be so successful. BANANAS: A LUNCHBOX BLESSING

Along with being easily digested, bananas keep your blood pressure in check. Because they are extremely high in potassium, a mineral that counteracts the harmful effects of excess sodium, bananas diminish the health hazards identified with many food preservatives.

THE OCTOBER SOCIAL EVENING

Dhil Lambert and Dhil Mowden will speak to our gathering after the usual short business meeting. They are co-amers of fiber-lak, a small company specializing in do-it-yourself fibergles for marine work and automobiles. Although most of their work is automotive, they have built several small boats including "bathtubs" for the Nensian to Vancouver race.

Mr. Lambert will discuss fiberglas and Mr. Howden will provide information about his speciality, marine painting.

THE TIME - The bar opens at 1930 and the program starts at 2000, Oct. 23, 1987

NOTICE FOR AMERICAN ASSOCIATE MEMBERS

Please make any payments to Fraser Squadron by money order in Canadian dollars. The use of cheques on American banks made out in Canadian dollars has caused confusion and considerable service charges.

EXECUTIVE MEETING

Fraser's next executive meeting will be held on Nov. 1, 1987 at 1930 at the home of Bernie Larnet. Members are welcome as observers but please call Bernie at 274-626 the day before the meeting the home of membership dues will soon arrive in your mailbox. Please note that this will cover 16 months of membership for this one time only as the CPS financial year is being changed. This should eliminate the occasional problem of some students who either rejoin or drop their membership during one of the courses. The dues for this increased period of membership will be \$36,00

As you may or may not know, each year Fraser presents the Pleasure Bent Trophy to the member who made the Diggest boo-boo on the water during the past year. This presentation is made in fine style at the Christmas Party.

Needless to say, we cannot rely on the culprit to "turn himself in". Therefore, we expect friends, acquaintences, wives, husbands, etc. to come forward and tell us about it. All tattling will be held in strictest confidence and nobody will ever know who told. Only humorous (to others) or non-injury incidents need be reported.

It is ay duty this year to accept nominations and choose the "winner". Please call me at 946-2749.

Linda Gisborne.
